General Information about Checksheet: Superscripted annotation after the course number (1) indicates core course of the degree while (2) indicates courses associated with the major. Additionally (F, S, SI, SII) in credits column indicates terms when a course is expected to be offered. Course offerings are subject to change and the availability of sufficient resources. Students should confirm course offerings in advance with their department.

Curriculum for Liberal Education (CLE)

Consult the CLE Alphabetical Listing at: http://www.cle.prov.vt.edu/guides/alpha.html, CLE courses need to be completed prior to graduation.

CLE Area 1: Writing and Discourse (6 hrs)	**ENGL 1105**	**(3)**	**ENGL 1106**	**(3)**
CLE Area 2: Ideas, Cultural Traditions, Values Electives (6 hrs)		**(3)**		**(3)**
CLE Area 3: Society & Human Behavior electives (6 hrs)		**(3)**		**(3)**
CLE Area 4: Scientific Reasoning and Discovery (8 hrs)	**PHYS 2305**	**(4)**	**PHYS 2306**	**(4)**
CLE Area 5: Quantitative and Symbolic Reasoning (8 hrs)	**MATH 1225**	**(4)**	**MATH 1226**	**(4)**
CLE Area 6: Creativity & Aesthetic Experience elective (1 hr)				**(1)**
CLE Area 7: Global Issues Elective (3 hrs)				**(3)**

If a CLE course is double-counted to satisfy two different CLE areas, a free elective(s) must be taken to maintain a minimum of 131 credits.

Electives

The CPE degree with a Major in Software Systems requires 9 hours of Software Systems technical electives from list, 3 hours of engineering and science electives from list, and 2-3 hours of free electives. Free electives or Area 6 courses offered only on a P/F basis may be taken under the P/F grading option.

Change of Major Requirements: For Change of Major requirement, please see:
http://www.enge.vt.edu/undergraduate/undergraduate-changing-majors

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The ECE Department fully supports this policy. Specific expectations for satisfactory progress for Computer Engineering majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog (under Academic Policies)
- Additionally, upon attempting of 60 credits, CPE students must have satisfactorily completed ECE 2014, ECE 2504 or 2574, MATH 2214 and (2204 or 2534), and PHYS 2306
- Upon attempting of 90 credits, CPE students must have successfully completed 35 credits of in-major courses and have 2.0 overall and in-major GPAs. (In determining the CPE in-major GPA, all ECE courses, including repeats, are used).

Statement of Prerequisites: Pre-requisites for each course are listed after the course title. All ECE courses require a C- or better in prerequisite courses. There are no hidden prerequisites in this program of study. Prerequisites may change from what is indicated. Be sure to consult the Timetable of Classes or check with your advisor for the most current requirements.

Graduation Requirements: Each student must complete at least 131 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In determining the CPE in-major GPA, all ECE courses, including repeats, are used.

TECHNICAL ELECTIVES FOR
COMPUTER ENGINEERING UNDERGRADUATES
Software Systems
Graduating 2021

APPROVED
University Registrar

The courses listed below are approved for CpE in-major and non-major technical elective credit. **Actual course offerings will be based on sufficient resources, including faculty availability and student demand.** Refer to the University's on-line timetable of classes for specific course availability information. Note: All ECE courses require a C- or better in prerequisite courses.

In-Major Technical Electives

Courses are grouped according to their inter-relatedness, but students are free to choose from multiple groups. If you are unsure of an academic focus, you are encouraged to take courses from several groups, giving you a broader background.

COMPUTERS (from ECE Department. DTE indicates Design Technical Elective)

ECE3544 (4) DIGITAL DESIGN I, Pre: 2504.

ECE4424 (3) MACHINE LEARNING (CS 4824), Pre: 2574, (STAT 4604 or STAT 4705 or STAT 4714).

ECE4504 (3) COMPUTER ORGANIZATION (CS 4504), Pre: 2500 or CS 3214.

ECE4514 (4) DIGITAL DESIGN II, Pre: 3544. **DTE**

ECE4520 (3) DIGITAL AND MIXED-SIGNAL SYSTEM TESTING AND TESTABLE DESIGN, Pre: 2574, (3504 or 3544).

ECE4525 (3) VIDEO GAME DESIGN AND ENG, Pre: 3574. **DTE**

ECE4526 (3) VIDEO GAME DESIGN AND ENG, Pre: 4525. **DTE**

ECE4530 (3) HARDWARE-SOFTWARE CODESIGN, Pre: 2534, (3504 or 3544). **DTE**

ECE4540 (3) VLSI CIRCUIT DESIGN, Pre: 2204, 2504. **DTE**

ECE4554 (3) INTRODUCTION TO COMPUTER VISION, Pre: 3574, (STAT 4705 or STAT 4714).

ECE4560 (3) COMPUTER AND NETWORK SECURITY FUNDAMENTALS, Pre: 2504 or CS 3214. **DTE**

ECE4564 (3) NETWORK APPLICATION DESIGN, Pre: 2504, 2574. **DTE**

ECE4570 (3) WIRELESS NETWORKS AND MOBILE SYSTEMS (CS 4570), Pre: 4564. **DTE**

ECE4574 (3) LARGE-SCALE SOFTWARE DEVELOPMENT FOR ENGINEERING SYSTEMS, Pre: 3574. **DTE**

ECE4580 (3) DIGITAL IMAGE PROCESSING.

COMPUTERS (from CS Department)

NOTE: The Computer Science Department restricts some of its courses to CS majors. Contact the CS department to follow their force-add procedure. CS requires a C or better in all in-major (CS or ECE) prerequisite courses. CS may accept some ECE courses as prerequisite substitutions. See the CS advisors in 114 McBryde for any clarification of prerequisite requirements. Note that many CS courses are taught in Java. If you use an ECE course as prerequisite, you will be expected to be proficient in Java before entering these upper level courses.

CS 3114 (3) DATA STRUCTURES AND ALGORITHMS, Pre: CS 2114, CS 2505, MATH 2534

CS 3304 (3) COMPARATIVE LANGUAGES, Pre: CS 3114.

CS 3414 (3) (MATH 3414) NUMERICAL METHODS, Pre: (CS 1044 (C) or CS 1705 (C) or CS 1114 (C) or CS 1124 (C)), (Math 2214 or MATH 2214H), (MATH 2224 or MATH 2224H or MATH 2204 or MATH 2204H)

CS 3714 (3) MOBILE SOFTWARE DEVELOPMENT, Pre: CS 2114.

CS 3744 (3) INTRO GUI PROGRAMMING/GRAPHICS, Pre: CS 2114, (MATH 1114 or MATH 1114H or MATH 2114 or MATH 2114H), (MATH 1224 or MATH 1224H or MATH 2204 or MATH 2204H).

ELECTRICAL AND COMPUTER SENIOR DESIGN PROJECT

A two-semester design project, emphasizing systems engineering principles in the development of an electrical and/or computational system. A specific, substantial engineering design problem is taken from problem definition to system realization and testing to demonstrate meeting of design specifications. This represents a major design experience based on knowledge and skills acquired in earlier course work throughout the curriculum. **Note: both semesters must be completed to earn credit.**

ECE4805 (3) SENIOR DESIGN PROJECT, Pre: 4805: Electrical Engineering majors must have completed the following courses with a C- or better: 2014, 2534, and any 2 of the following courses: (3105, 3204, 3304, 3614, 3704). Computer Engineering majors must have completed the following courses with a C- or better: 2014, 2534, 3574 and one of the following courses: (3204 and 3274, 3004 and 3074, 3544, 3614, 3704, 3714, 4424, 4704, CS 3214, CS 4264).

ECE4806 (3) SENIOR DESIGN PROJECT, Pre: 4805. **DTE**

MECHANICAL ENGINEERING SENIOR ENGINEERING DESIGN AND PROJECT

ECE graduating seniors, with the permission of the ME department, can enroll in the ME senior engineering design and project courses. Force-adds must be approved and processed through the ME Advising office. **Note: both semesters must be completed to earn credit.**

ME 4015 (3) Engineering Design and Project [Permission of ME Department]
ME 4016 (3) Engineering Design and Project [Permission of ME Department] **DTE**

INDEPENDENT STUDIES AND UNDERGRADUATE RESEARCH

The courses listed below can *generally* be used for technical elective credit or design technical elective credit, based on the particular content of each course as it is taught in a given semester. Please discuss technical elective credit options for these courses with your advisor prior to completing the required paperwork to add these courses.

4974 (ARR) Independent Study
4994 (ARR) Undergraduate Research

Notes:
Students must complete the College of Engineering Undergraduate Research/Independent Study Form, the ECE Undergraduate Research/Independent Study Proposal Form, and the ABET Breakdown prior to registration. The forms are due in 340 Whittemore by 12:00 noon on the 3rd day of the first week of class for the requested semester – no exceptions. Forms are available online at www.ece.vt.edu/undergrad/policies.

For purposes of satisfying the major technical elective requirements, the sum of the number of hours taken from ECE 4974 and 4994 cannot exceed 6 in any one project, without prior approval.

NON-MAJOR TECHNICAL ELECTIVES

ECE students may take up to 3 credit hours of non-major technical electives. Students are reminded that they DO NOT have to take a non-major technical elective. *All* technical electives can come from the in-major list.

1) Any 3000 or 4000 level course, *except those listed in Items 2 and 3 below*, in Engineering, Engineering (non-degree ENGR), Biology, Biomedical Engineering and Sciences, Chemistry, Computer Science, Mathematics, Nuclear Engineering, Physics, and Statistics **NOT REQUIRED FOR GRADUATION, THAT DOES NOT DUPLICATE** any course in the program of study, and for which you have the appropriate prerequisite, may be used as a non-major technical elective.
2) Non-major 4974, 4984, 4994 courses and study abroad courses must be approved for non-major technical elective credit in advance. See your advisor for guidance.
3) REMINDER: ESM 4404 – Fundamentals of Professional Engineering – **CANNOT** be used as a non-major technical elective and **DOES NOT COUNT TOWARDS GRADUATION**.

GRADUATE COURSES USED AS TECHNICAL ELECTIVES

APPROVED
University Registrar

ECE students who meet the University requirements to enroll in graduate courses may use graduate level ECE courses as technical elective credit.

1) Per University policy, undergraduate students must have earned a 3.0 cumulative GPA to be eligible to enroll in graduate level courses.
2) Note that graduate courses taken as an undergraduate **cannot** be used toward a graduate degree in ECE at VT. Exceptions to this policy: a) students enrolled in the Accelerated UG/G program; b) students who are dual enrolled in the ECE graduate program. Please see your advisor if you have questions regarding this policy.
3) To enroll in graduate level courses, undergraduates will need to complete an online ECE force add request. If prerequisites are met and space permits, students will be force-added to the graduate course(s).

Engineering and Science Elective List
For Electrical Engineering and Computer Engineering majors
Graduating in 2021

APPROVED
University Registrar

EE and CPE majors are required to take one non-major engineering or science course from the following list. Some courses may include prerequisite courses not required for the EE or CpE curriculum. It is the student's responsibility to be aware of prerequisites and to ensure that all prerequisites are completed prior to enrolling in the chosen course.

Enrollment into courses will be based on sufficient resources, including faculty availability and student demand.

Within the College of Engineering:

BSE	3154	Thermodynamics of Biological Systems
CHE	2114	Mass and Energy Balances
ECE	3105	Electromagnetic Fields (CpE majors only)
ESM	2104	Statics
ESM	4084	(AOE 4084) Engineering Design Optimization
ISE	2404	Deterministic Operations Research I
ME	3134	Fundamentals of Thermodynamics
MSE	2034	Elements of Materials Engineering
MSE	3204	Fundamentals of Electronic Materials
NSEG	3145	Fundamentals of Nuclear Engr
