FORESTRY NOTES

1. **Satisfactory Progress:** By the end of the semester in which the student has attempted 60 hours (including transfer, advanced placement, advanced standing, and credit by examination), "satisfactory progress" towards a B.S. degree in Forest Resources and Environmental Conservation will include the following minimum criteria:
   - Having an in-major and overall grade point average of at least 2.0
   - Passing at least 24 semester credits that apply to the Pathways to General Education
   - Passing the following courses, or their equivalents: BIOL 1105, BIOL 1106, and MATH 1025

2. **Foreign Language Requirement:** A sequence of two (2) foreign language courses is required for graduation unless two (2) high school units of the same foreign language or six (6) transfer credit hours of foreign language have been earned. These credits do not count toward graduation. See catalog section on "Graduation Requirements".

3. **Policy on Student Exchanges:** If studying overseas or at another U.S. university, begin planning at least 9 months prior to your departure to allow time to determine what substitutions, if any, will be allowed and to arrange your schedule to ensure that all requirements for graduation will be met.

4. **In-major GPA Computation:** Includes all courses designated as FREC.

5. **An in-major and overall GPA average of 2.0 is required for graduation.**

6. **In accordance with university guidelines, courses satisfying degree core requirements may not be double counted to satisfy other areas of a degree (e.g. Pathways to General Education).**

7. **Prerequisites:** Some of the listed courses have prerequisites and some courses must be taken in sequence to satisfy prerequisites. Be sure to consult with the University Catalog or check with your advisor.

8. **Acceptable Substitutions:** The following requirements have acceptable substitutions.
   a. CSES/ENSC 3134 Soils in the Landscape: CSES/ENSC 3114 Soils
