Change of Major Requirements: Please see http://www.enge.vt.edu/undergraduate-changing-majors.html

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: Each student must meet the minimum University wide criteria as described for satisfactory progress and summarized in the Undergraduate Catalog (under Academic Policies -> University Policies Governing Enrollment -> Satisfactory Progress). After having completed 72 credit hours (including transfer, advanced placement, advanced standing, and credit by examination) a student must:

- Maintain an overall and in major GPA of 2.0 or better. (In-major GPA is calculated using all courses taken under the MINE designator)
- Have passing grades in MINE 2504, MATH 2204 and MATH 2214.

Statement of Hidden Prerequisites: Prerequisites for each course are listed after the course title. The (letter grade) notation, such as (C-), indicates the minimum grade students must earn in the pre-requisite course. There are no hidden pre-requisites in the program of study. Prerequisites may change from what is indicated. Be sure to consult the University Catalog or check with your advisor for the most current pre-requisites.

Graduation Requirements: Each student must complete at least 127 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In-major GPA is determined from all courses with MINE designator.

B.S. in Mining Engineering Technical Electives

Courses with substantial duplication of courses taken previously will not qualify for credit. Independent Study (4974) and Undergraduate Research (4994) may not be used as electives.

Choose from the courses listed below, noting that some courses are not available to all students because they may have prerequisites or be restricted to major in the offering department.

All Technical Elective courses are 3 credit hours unless designated otherwise.
