**General Information about Checksheet:** Superscripted annotation after the course number (1) indicates core course of the degree while (2) indicates courses associated with the major. Additionally, (F, S, SI, SII) in credits column indication terms when a course is expected to be offered. Course offerings are subject to change and the availability of sufficient resources. Students should confirm course offerings in advance with their department.

**\*\*Must take one of the following courses to complete the prerequisites for ECE 4805:** ECE 3106 or ECE 3134 or ECE 3204 or ECE 3304 or ECE 3544 or ECE 3564 or ECE 3574 or ECE 3614 or ECE 3704 or ECE 4205 or ECE 4234 or ECE 4254 or ECE 4424 or ECE 4540 or ECE 4524 or ECE 4580 or ECE 4704

**Electives**

The Space Systems major requires 3 hours of math electives from list and 9 hours of free electives. Only free electives may be taken under the P/F grading option. Students are encouraged to use free electives to provide depth in their major or secondary focus.

**Secondary Focus**

The Space Systems Major requires 9 credits for a secondary focus area. Students have the flexibility to choose any 3 ECE courses (9 credits) at the 3xxx level or 4xxx level to meet the secondary focus requirements as long as at least one course (3 credits) is at the 4xxx level and the courses do not duplicate major courses. Alternatively, students may seek an approved individualized secondary focus. See the requirements below (page 3) for more information.

**Change of Major Requirements:** Please see: <https://eng.vt.edu/em>

**Foreign Language Requirements:** Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

**Satisfactory Progress Towards Degree:** University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The ECE Department fully supports this policy. Specific expectations for satisfactory progress for BSCPE and BSEE majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog (under Academic Policies)
- Upon completing 2 semesters in ECE, students must have satisfactorily completed ECE 2024, ECE 2514, ECE 2544, MATH 2214, and PHYS 2306
- Upon completing 3 semesters in ECE, students must have satisfactorily completed ECE 2804.
- Upon attempting 90 credits, BSCPE and BSEE students must have successfully completed 33 credits of in-major courses and have 2.0 overall and in-major GPAs. (The BSCPE and BSEE in-major GPA includes all ECE courses, including repeats).

**Grade Requirement:** Students must earn a C or higher in the following ECE courses: ECE 1004, ECE 2024, ECE 2214, ECE 2514, ECE 2544, ECE 2564, ECE 2714, ECE 2804.

**Statement of Prerequisites:** Pre-requisites for each course are listed after the course title. In general, all ECE courses require a C- or better in prerequisite courses. Students must earn a C or higher in the ECE courses listed above. There are no hidden prerequisites in this program of study. Prerequisites may change from what is indicated. Be sure to consult the Timetable of Classes or check with your advisor for the most current requirements.

**Graduation Requirements:** Each student must complete at least 132 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In determining the Space Systems in-major GPA, all ECE courses, including repeats, are used.

SECONDARY FOCUS REQUIREMENT  
Space Systems Major  
For Students entering under UG Catalog 2022-2023

FOCUS AREAS WITHIN ECE

The courses listed below are grouped into suggested ECE focus areas. Students are encouraged to choose 3 courses from a single focus area that is not their chosen major. Students have the flexibility to choose any 3 ECE courses (9 credits) at the 3xxx level or 4xxx level to meet the secondary focus requirement as long as at least one course (3 credits) is at the 4xxx level. **None of the 3 courses can duplicate a course from the student's major. Actual course offerings will be based on sufficient resources, including faculty availability and student demand.** Refer to the University's on-line timetable of classes for specific course availability information and prerequisite. Note: All ECE courses require a **C- or better** in prerequisite courses unless a C or better is noted on the checksheet.

### **INDEPENDENT STUDIES AND UNDERGRADUATE RESEARCH**

For purposes of satisfying the Secondary Focus requirements, the sum of the number of hours taken from ECE 4974 and 4994 cannot exceed 6 credits.

4974	(ARR)	Independent Study
4994	(ARR)	Undergraduate Research

Instructors and students must complete the College of Engineering Undergraduate Research/Independent Study Form (<https://eng.vt.edu/academics/undergraduate-students/resources-support/undergraduate-research-independent-study.html>).  
Deadline to submit form is last day to add classes.

### **INDIVIDUALIZED SECONDARY FOCUS (Must be preapproved by ECE Department)**

Electrical and computer engineering has applications across a wide variety of fields, such as medicine, human-computer interaction, finance, and entertainment. People with ECE degrees can be entrepreneurs, patent lawyers, policy makers, and business executives. The individualized secondary focus helps students pursue these interests. This option can be used in place of a pre-defined, in-department secondary focus.

The individualized secondary focus typically is pursued via an already defined university-approved program such as a degree, major, minor, or certificate that the student has declared. Students are encouraged to select courses from these programs, subject to the guidelines below.

- 1) To begin this process, students must first meet with their academic advisor.
- 2) The student must complete a brief proposal form describing the expected added value to their major. This includes a narrative about how these courses support the student's career goals and ability to achieve their professional aspirations. This proposal must be approved by the Director of Undergrad Program or designee.

- 3) Individualized secondary focus plans must include 3 courses within the following parameters:
  - a. None of the courses may duplicate the student's ECE major requirements.
  - b. None of the courses can be at the 1xxx level (1xxx courses required for university-approved programs, e.g. minors, can be used for a student's free electives).
  - c. A maximum of one course can be at the 2xxx level, and only if it is a requirement of a university approved program, or if the course is a prerequisite to one or more of the other two courses in the individualized secondary focus.
  - d. A minimum of one course must be at the 4xxx level.
- 4) If the set of courses is part of an already defined university program, the student should attach documentation to the proposal form.
- 5) If the set of three courses are *not* part of an already defined university-approved program, the student must also obtain written approval from the department that houses the courses.
- 6) It is the student's responsibility to ensure that the set of courses is available to be taken in a timely manner. The ECE department is not responsible for changes of programs elsewhere in the university.

**MATH ELECTIVE REQUIREMENT**  
**Space Systems Major**  
**For Students entering under UG Catalog 2022-2023**

Space Systems majors are required to take one math elective course from the following list. Some courses may include prerequisite courses not required for the EE curriculum. It is the student's responsibility to be aware of prerequisites and to ensure that all prerequisites are completed prior to enrolling in the chosen course. Note that courses may be restricted to specific majors during certain semesters.

Enrollment into courses will be based on sufficient resources, including faculty availability and student demand.

- MATH 2534 (3) INTRO DISCRETE MATH, Pre: CS 1114 or ECE 1574 or ECE 1004
- MATH 3034 (3) INTRODUCTION TO PROOFS, Pre: MATH 2114 or MATH 2114H or MATH 2405H.
- MATH 3214 (3) CALCULUS OF SEVERAL VARIABLES , Pre: MATH 2224 or MATH 2224H or MATH 2204 or MATH 2204H or MATH 2406H or CMDA 2005.
- MATH 3414 (3) NUMERICAL METHODS (CS 3414), Pre: (CS 1044 or CS 1705 or CS 1114 or CS 1124), MATH 2406H or (CMDA 2005, CMDA 2006) or (MATH 2214 or MATH 2214H), (MATH 2224 or MATH 2224H or MATH 2204 or MATH 2204H).
- MATH 4445 (3) INTRODUCTION TO NUMERICAL ANALYSIS, Pre: MATH 2406H or (CMDA 2005, CMDA 2006) or (MATH 2214 or MATH 2214H), (MATH 2224 or MATH 2224H) or (MATH 2204 or MATH 2204H).
- MATH 4446 (3) INTRODUCTION TO NUMERICAL ANALYSIS, Pre: MATH 2406H or (CMDA 2005, CMDA 2006) or (MATH 2214 or MATH 2214H), (MATH 2224 or MATH 2224H or MATH 2204 or MATH 2204H).
