Double Majors/Minors: The School of Neuroscience offers majors in Cognitive and Behavioral Neuroscience, Clinical Neuroscience, Computational and Systems Neuroscience, and Experimental Neuroscience. Courses for these majors overlap slightly. Therefore, students may not pursue multiple majors within the School.

Foreign Language Requirement: Students who did not successfully complete at least two years of a single foreign, classical, or sign language during high school must successfully complete six semester hours of a single foreign, classical, or sign language at the college level. Courses taken to meet this requirement do not count toward the hours required for graduation. Please consult the Undergraduate Catalog for details.

Grade Requirements: Students must earn a grade of “C-” or better in all core neuroscience coursework (CHEM 1035, CHEM 1036, NEUR 1004, NEUR 2025, NEUR 2026, NEUR 2035, NEUR 2036, NEUR 4044, PSYC 1004) or the equivalent coursework. Students must also earn a “C-” or better in BIOL 1105, BIOL 1106, BIOL 1115, BIOL 1116, MATH 1225, and MATH 1226. Only two attempts, including course withdrawals with a grade of “W,” are allowed for each core neuroscience course, BIOL 1105, BIOL 1106, BIOL 1115, BIOL 1116, MATH 1225, and MATH 1226.
Graduation Requirements: Student must complete a minimum of 120 credit hours with an overall GPA of 2.0 and a minimum in-major GPA of 2.0. For purposes of GPA computation, courses IN-MAJOR will include Core requirements, Major requirements, Restricted Electives, BIOL 1105, 1106, 1115, 1116, and MATH 1025-1026.

#Prerequisites: This check sheet contains courses that have at least one prerequisite that may not be included as part of this degree. Please see your advisor or consult the Undergraduate Course Catalog for more information.

Progress Toward Degree Policy: After attempting 72 credits, students must have completed BIOL 1105, 1106, 1115, 1116, CHEM 1035-1036, NEUR 2025-2026 and 2035-2036; have a minimum overall GPA of 2.5; and have completed at least 24 credits that apply to the Pathways to General Education requirements.

Terminology:

Pathways Requirements: Pathways to General Education is defined by the university as “A vibrant, flexible, and innovative general education program that provides a coherent and meaningful learning experience and allows students to integrate the learning for use throughout their lifetimes.”

Core Neuroscience Requirements: Core neuroscience requirements are those requirements that must be fulfilled by all students in the School of Neuroscience, regardless of major.

Major Requirements: Major requirements are those requirements that are unique to the EXPN major and do not apply across all School of Neuroscience majors.

Restricted Elective: Restricted elective courses provide students the autonomy to select 12 or more credits of coursework within an approved list to count towards the students’ degree requirements. These courses expand on the depth and breadth of the EXPN major.

Free Elective: Free elective credits may consist of any credit-bearing Virginia Tech coursework to ensure that students reach the 120 credits required by the university to earn a bachelor’s degree. Coursework that does not apply elsewhere towards the degree will apply here (this includes non-duplicative coursework for double majors, minors, or AP coursework that does not count elsewhere towards the degree).
