Notes:  
Students must have an in-major and overall GPA of 2.0 to graduate.  
All BIOL courses (except 1004, 1214 and 3814), any course taken to fulfill EEB Option elective credit, and all required  
CHEM, MATH, PHYS and STAT courses will be used to calculate in-major GPA.  
1 Students must earn a grade of "C" or better in BIOL 1105, 1106, 1115, 1116, CHEM 1035, CHEM 1036, or the  
equivalent. Only two attempts, including course withdrawals with grade of "W", are allowed for each course.  
2 BIOL 1004 is required but will not be used to calculate in-major GPA.  
3 A course used to complete the laboratory requirement may also count toward the EEB Elective group (2 or 3) in  
which it is listed.  
4 A 3-credit BIOL 4994 experience taken for grade of A-F may count toward EITHER EEB Elective Option group 2  
OR 3.  
^ Course has major restriction: students may ask FIW to be added if seats are available.  
# Some courses listed on this checksheet may have prerequisites, please consult the University Course Catalog, or  
check with your advisor.

College of Science Foreign Language Requirement:
Students who did not successfully complete at least two years of a single foreign, classical, or sign language during high school must successfully complete six semester hours of a single foreign, classical, or sign language at the college level. Courses taken to meet this requirement do not count toward the hours required for graduation. Please consult the Undergraduate Catalog for details.
